Union TECHNICAL FEATURES

• Melamine top:

made of 25 mm thick chipboard covered with decorative paper impregnated with melamine resins, edged on the perimeter with 2 mm thick solid abs.

Rounded, 2 mm radius.
Density 620 Kg / m 3
Formaldehyde emission class Carb phase II
Fire reaction class: 2.

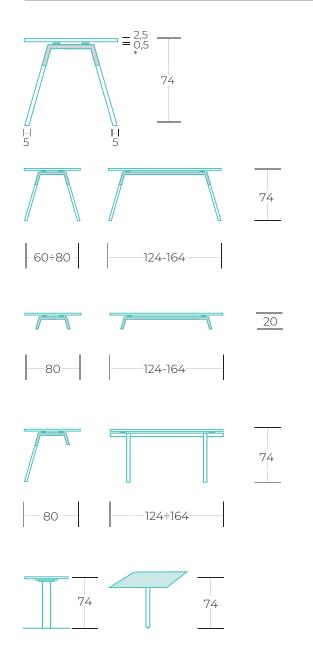

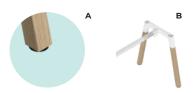

• Beams:

the legs are joined together by a fixed beam made with a square section drawn tube $40 \times 40 \times 1.5$ mm, inserted in the joint welded to the leg.

Union TECHNICAL FEATURES

· Legs:

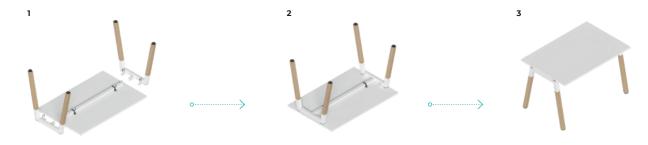

made of drawn steel tube having a section of 50 x 50 mm and 2 mm thick. At the lower ends are inserted caps in abs with the 1 cm height leveler housed.

- **A.** The legs are fitted with a leveling foot with an excursion of 10 mm.
- **B.** The beam is engaged and fixed into the central sleeve welded to the leg by screwing M8 grub screws. The leg has a welded sleeve for quick coupling of the beam. It is delivered with ABS brackets for fixing to the top and finishing caps already mounted.
- *5 mm usable space for fixing hanging typing brackets / linear aggregations and multiple accessories. (CPU holder cable management baskets and flat beam fixing clip).

· Quick desk assembly:

Union is a quick assembly model with 3 simple steps:

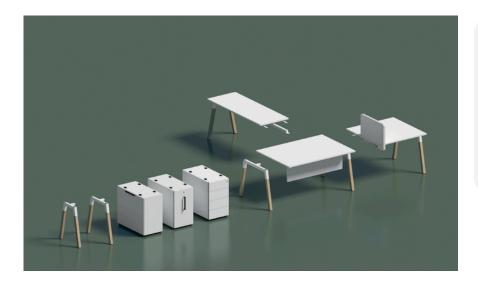

- **1.** Fix the structure to the top (8 metric screws)
- **2.** Fix the grains of the beam to the legs (4 grains)
- **3.** Attach the stiffener clips (2 clips)

Union CONSTRUCTION FEATURES

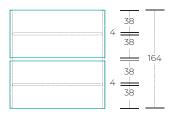

• Desks abacus:

d. 60/80 desks take a central beam.

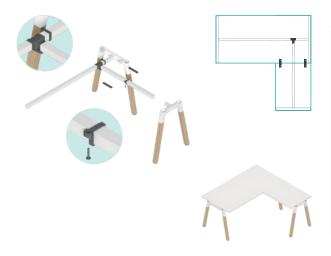

• Bench abacus:

bench and meeting tables take a double beam.

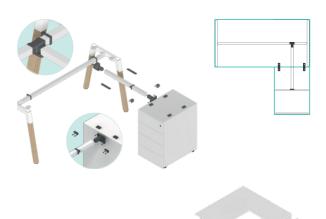

Union COMPONIBILITY

• Desk with hanging return:

60 cm deep add-on module fixed to the 80 cm deep main desk by means of a molded joint in fiberglass filled ABS, which allows beam-to-beam connection.

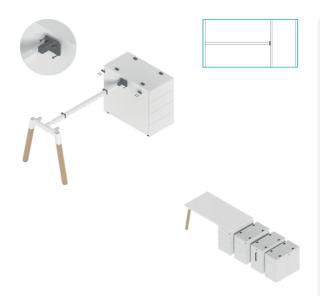

N. 2 steel plates with fixing through N. 4 self-tapping screws and 4 metric for the perfect alignment of the tops and N. 1 clip that hooked to the beam gives the possibility with N 1 self-tapping screw to fix the surface of the hanging return desk.

Hanging return on desk high structural pedestal:

add-on module 60 cm deep with 3 or 4 drawers desk high pedestal fixed to the main desk 80 cm deep. In addition to the bracket of the hanging desk, a joint in fiberglass-filled ABS is supplied with a sleeve for coupling the typing beam. This joint must be fixed to the side of the pedestal unit with 2 self-tapping screws.

In the load-bearing drawer unit, N. 4 molded ABS shims are supplied for correct leveling from 1 cm.

Desk with supporting storage:

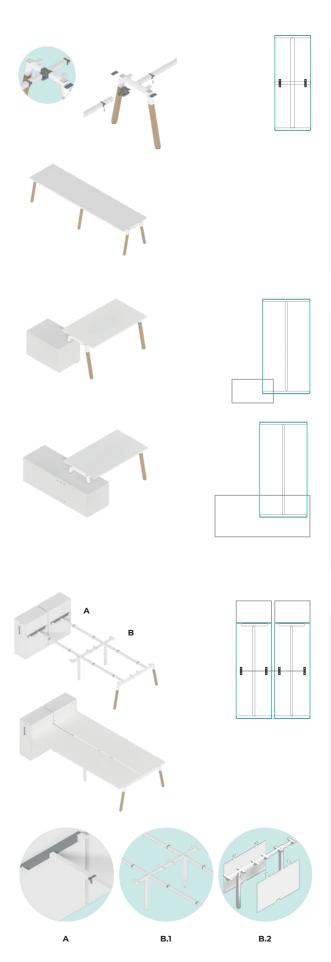

an 80 cm deep desk with a supporting container under the top. They can be mounted both on the right and on the left The containers can be:

- · Pedestal with 3 or 4 drawers with lock;
- · Vertical file right left with lock;
- · Cabinet with 2 doors and lock.

The desk beam is connected into a fiberglass-filled ABS joint, which is fixed by means of the 4 self-tapping screws to the side of the container.

The container is supplied with 4 molded ABS shims for correct leveling from 1 cm.

Union COMPONIBILITY

• Desk with linear aggregation:

system gives the possibility to add an additional top to the main desk linearly without doubling the leg centrally. Linear aggregation takes place through a kit consisting of a molded joint in fiberglass-filled ABS.

2 steel plates will be supplied with fixing by means of 2 self-tapping screws, for perfect alignment of the surfaces. N. 1 CLIP that hooked to the beam gives the possibility with N. 1 self-tapping screw to guarantee 5 mm of space for accessories.

• Bridge desk on service cabinet:

80 cm deep desk that lays on a service unit. They can be mounted both on the right and on the left.

Containers with different dimensions with no pre-holes on the top. The user can choose position of the desk to his liking.

End leg can be:

- · total bridged;
- \cdot one reduced leg.

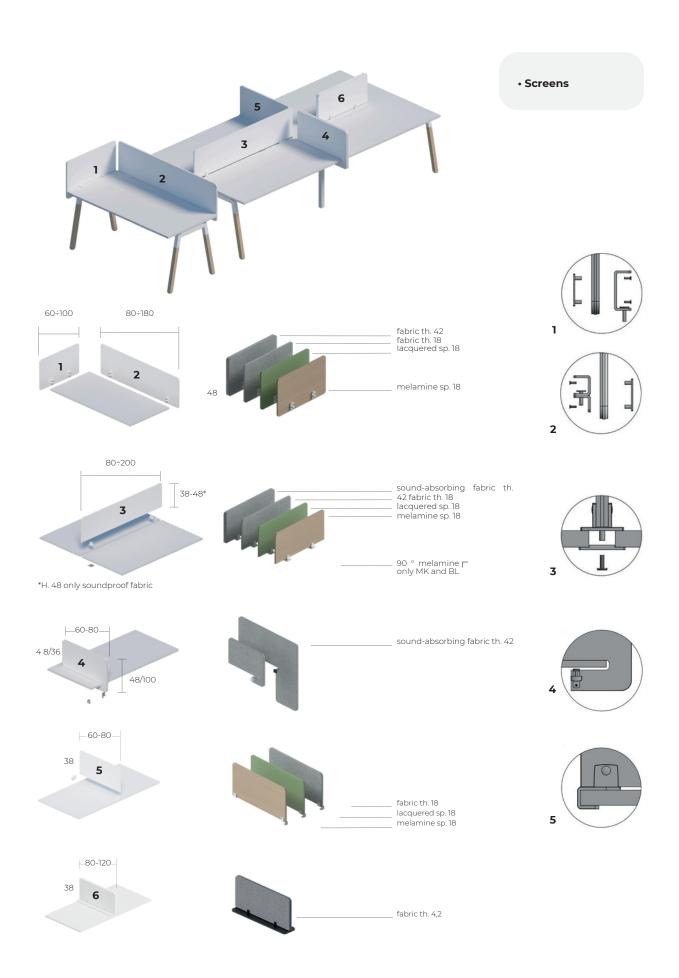

During assembly, the legs can be placed simply or fixed after drilling the furniture on site using a metric screw.

• Bench with intermediate leg and high aggreUnion container (vertical file):

workstations for 2 or more people, with a depth of 164. The worktops have a depth of 80. Thus a space of 4 cm is formed between the tops that can be used as cable outlet or screen fixing. The intermediate retracted leg has welded 4 sleeves thus ensuring the double coupling of the beams and N. 8 ABS brackets for fixing the tops, already mounted on the leg.

Possibility of aggregating a tall container "Vertical File" only available depth 80 by means of a steel tubular provided with a welded sleeve for joining the desk / bench beam. This tubular must then be fixed on the side of the container by means of N. 2 metric screws. The container has 2 through holes on each side with threaded inserts, thus allowing the correct positioning of the tubular.

Modesty panels:

made of 18 mm thick melamine (density 620 kg / mc class and 1 with low formaldehyde emission according to CARB standards, fire reaction class 2). Hooked to desk tops with a pair of fixing brackets mounted along the inner face of the modesty panel itself. Union tops have pre-drilled holes for the correct positioning of the modesty panel.

• CPU Holder:

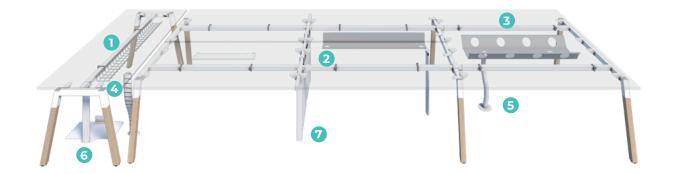

CPU holder in metal hanging from the beam of the desks, which can be positioned according to the customer's choice.

The fixing takes place through a screw that blocks the upper clamp of the CPU holder.

• Hanging drawer:

metal drawer with lock and soft-closing guides. Possibility of inserting stationery tray Fixing to the surface by 4 screws. NB only for desks / benches P 80/164.
